U.S. 26 MT. HOOD HIGHWAY

Safety and Preservation Project

The U.S. 26 Mt. Hood Highway Safety and Preservation Project is a safety improvement project along U.S. 26 west of Government Camp between east of Kiwanis Camp Road and east of Mirror Lake.

Construction is Underway

Work will take place Monday through Saturday during the months of April through October in 2015 and 2016. This could change during the course of the project. Flagging, and road and trail closures will not occur on major holidays or Sundays.

Plan to Avoid Delays

Construction will delay travel through the area. However, you will still be able to get to where you are going. Here is what to expect so **you can plan to avoid delays.**

- ▶ Up to one-hour closures of U.S. 26 from 5:30-7:30 p.m. on Mondays, Tuesdays and Thursdays for blasting of rock slopes*
- ▶ Intermittent trail closures for blasting and construction work
- ▶ 20-minute closures of U.S. 26 anytime the contractor is working
- ▶ Flagging instead of road closures
Including possible around-the-clock flagging at Map Curve. Monday-Friday, from early-April to May 21.
- ▶ Around-the-clock lane closure from April–October each year. One lane will remain open in each direction between east of Kiwanis Camp Road and east of the Mirror Lake Curves
- ▶ Increased truck traffic on U.S. 26 and roads to stockpile sites and quarries, such as Lolo Pass Road and Trillium Lake Road.
- ▶ Trail closures at Mirror Lake and the Laurel Chute Trail*

*Exact closure dates will be posted at www.US26MtHoodSafety.org

Work will not occur from November through March each year and all lanes will be open.
